About WDH

- WDH formed as a result of a large voluntary stock transfer in 2005.

- We now own and manage ~31,500 residential properties in Wakefield and the wider Yorkshire area.

- WDH is part of Northern Shared Services and provides responsive repairs for a further ~14,000 properties.

- WDH offers a Carelink service to over 15,000 customers throughout Wakefield District
Area of Operations
Overview of our GIS
WDH and Cadcorp

- October 2013: Cadcorp were awarded the tender to replace WDH’s previous web mapping solution. By early 2014 we were up and running.

- We introduced Web Map Layers 8.0 in August 2018

- We’ve also been using the various iterations of Map Editor and Modeller and have started using SIS9 recently.

Data Analysis
WDH Maps brings together a variety of data sets relating to, but not limited to, our properties, land ownership, grounds maintenance and our trees. You can also use WDH Maps to create your own maps and share map views to support your work.

We are also able to set up private maps that can only be accessed by an approved list of members of staff. For instance, if you would like to visualise data that you would like to restrict access to, or data that is commercially sensitive this is something that we can facilitate. Please contact the GIS Team for further details.

Please follow this link to access the tool: [link](https://wdh.maps.wdh.co.uk/).
