

November 2025

# Benefits of GIS for day-to-day housing operations

George Dodd – Business Development Manager

Simon Parker – Pre-sales Team Leader

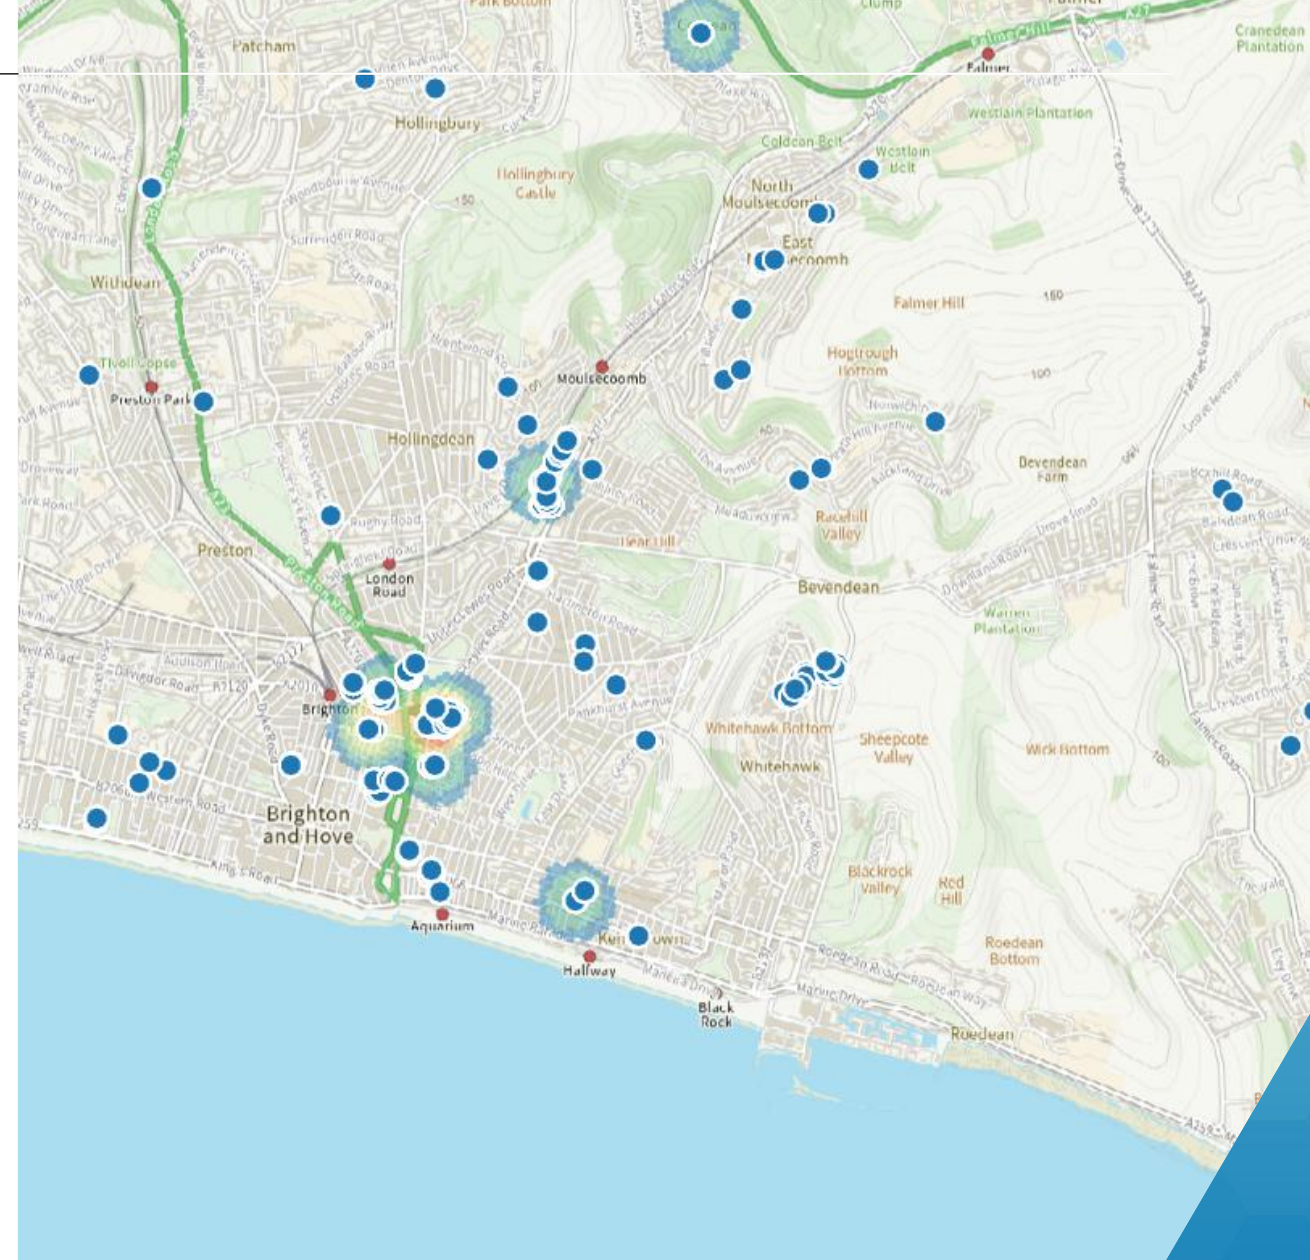

# Day-to-day operations

1. Damp and mould inspections
2. Gutter maintenance
3. Conveyance plans

# 1. Damp and Mould

- Awaab's Law - October 2025
- Identify high-risk areas before problems occur
- Identify high-risk populations before problems occur

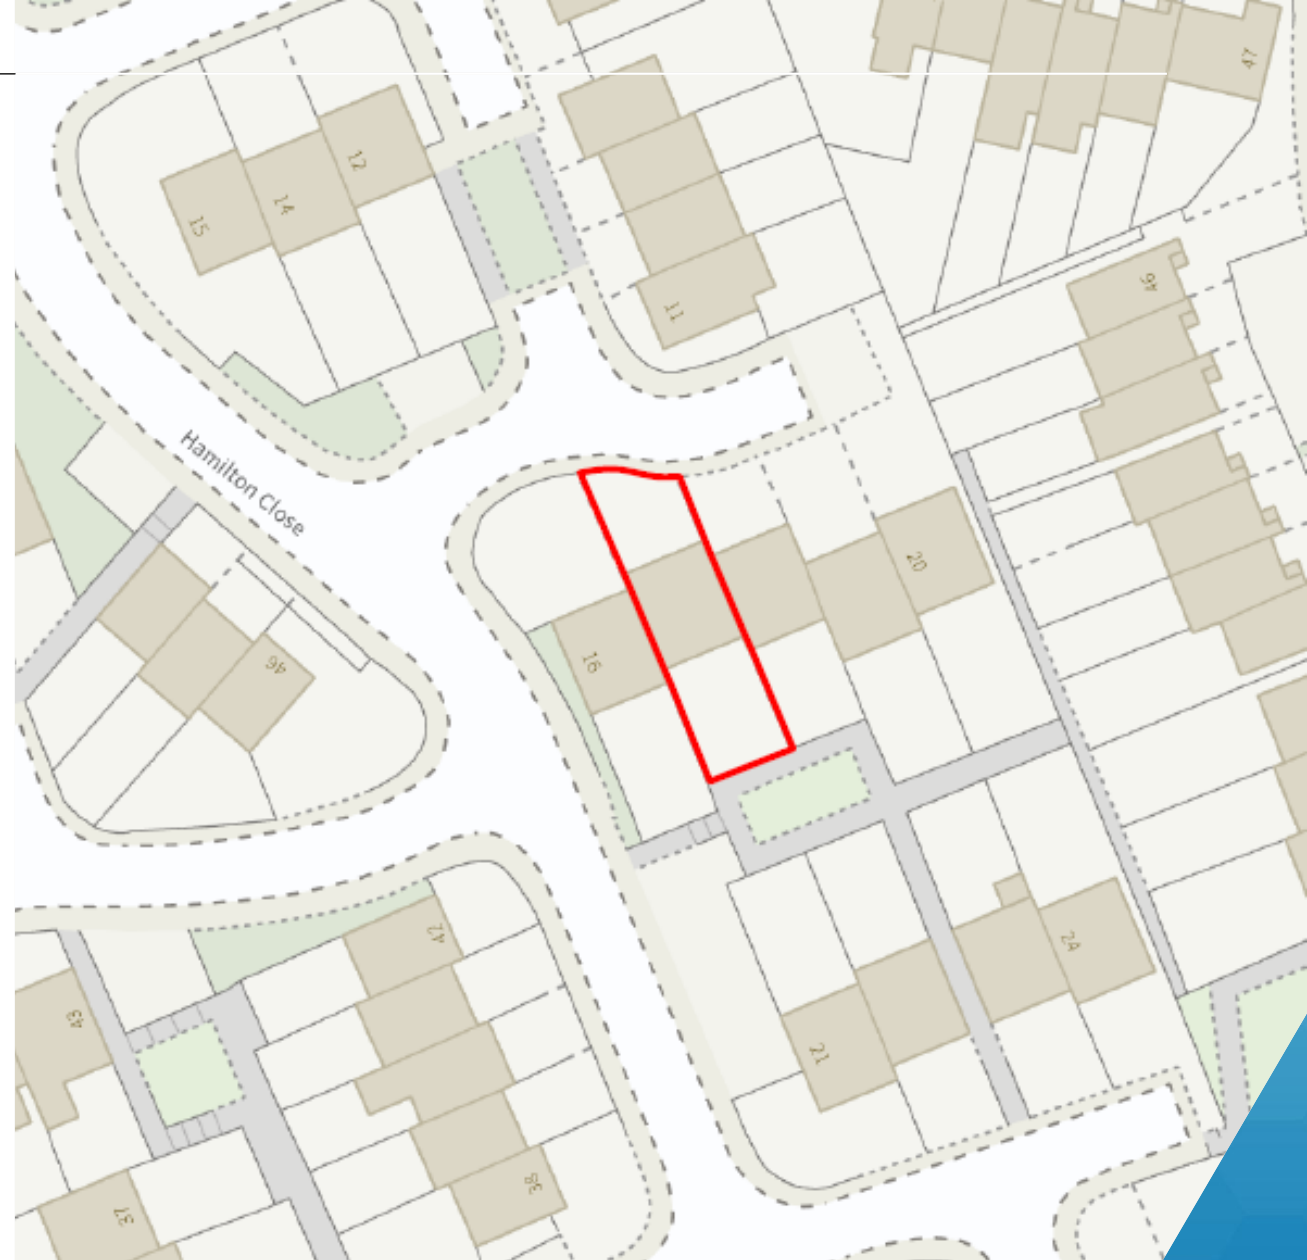

## 2. Gutter Maintenance

- Identify where trees overhang your properties
- Act early to prevent future problems
- Save time and money

# 3. Conveyance Plans

- Plot red-line boundaries and boundary responsibilities
- Create professional PDF maps
- Estimated saving of £200 per plan

---

# Demonstration

# Key Takeaways

- Lots of ways GIS can be used to improve day-to-day operations
- Comply with legislation, save time, save money
- More examples in '*Applications and Benefits of GIS for Housing*' webinar
